

Come *experience*
skin care
far beyond
the ordinary.

Our Purpose

With the frantic pace of life and increased stress, Alamance Skin Center is pleased to offer a relaxing environment where our skilled professionals restore and preserve the beauty and health of your skin.

Our Products

Our skincare lines are the most effective products available on the market today. They have been researched and tested by the leading scientists in the world. The products we offer are only available through physicians.

Skin Care Consultation

Includes a skin evaluation, education and personalized recommendations for a healthy skin care regimen.

Specialized Facials

We use only the highest quality of medical strength products for your skincare treatments. Each facial is customized to your unique needs; which include cleansing, steaming, exfoliation, extractions, toning, lymphatic massage, mask and moisturizer.

Acne Treatments

Designed to improve blemished, oily and acne prone skin by deep pore cleansing, extractions, and customized masks.

Microdermabrasion

We use physician grade equipment to rejuvenate, smooth and improve imperfections. Microdermabrasion is effective in treating fine lines and wrinkles, large pores, scarring, sun damage, acne and superficial age spots. For optimal results a series of treatments is recommended.

Chemical Peels

Our peels treat acne, sun damage, age spots, wrinkles, scarring and improve the overall texture of your skin. Varying strengths are available depending on your needs. Peels are available as one time procedures or in a series for optimal results.

We are pleased to offer FDA approved, state-of-the-art laser and light based technology.

Laser Hair Removal

Effective and safe for all skin types. FDA approved. A series is required for maximum results. Make an appointment for consultation. Rates quoted with evaluation.

IPL Photo Rejuvenation

Intense pulse light technology stimulates the growth of new collagen and improves the texture of your skin. IPL reduces the appearance of uneven pigmentation, sun damage, large pores, broken capillaries and facial veins. Also beneficial for patients suffering with rosacea and acne.

YAG Laser

Removes vascular facial and leg veins.

X-Trac Laser

Treats psoriasis, vitiligo and skin discoloration.

Photo Dynamic Acne Therapy

FDA approved light treatment for moderate acne can be used alone or in combination with oral and/or topical prescription acne treatments. Treatment may include a topical application of 5-aminolevulinic acid (ALA) for more severe acne.

A variety of surgical and non-surgical services are provided by our Board Certified Physicians for those patients who desire a more youthful appearance. Alamance Skin Center is the largest provider of Botox[®] Cosmetic and filler services in Alamance County and the surrounding region.

Botox® Cosmetic

Injections for relaxing frown lines, crows feet and forehead wrinkles.

Sculptra™

Injections for plumping sunken areas of the face and nasolabial/smile lines.

Juvederm™

Filler injections for smile lines, scars and lip enhancement.

Chemical Peels

Physician strength peels for more aggressive results to improve sun damage, age spots, wrinkles, scarring and enhance overall skin texture.

Sclerotherapy

Injections for the treatment of spider veins.

Vascular Laser Treatments

For elimination of fine red blood vessels and rosacea of the face, as well as, spider veins of the face and legs. An excellent treatment for red cherry hemangiomas of the skin.

Latisse™

Prescription eyelash growth enhancer for longer, thicker lashes.
